

FCC,

Stop sucking up to the telemarket and stop taking bribes so that they can not bother all of us hardworking, taxpaying, law-abiding Americans. Why should we be bothered by these annoying tactics when the rich owners & execs of these companies, who make way more money than we can dream of, do not get bothered because they have unlisted phone numbers and expensive electronics that divert these harrassing calls. Please FCC listen to us who pay your salaries and your President. Remember you can be replaced too!!!!!!!!!!
